"Little People Make Big Mistakes"

Sometimes little people
Make big mistakes
Sometimes mountains crumble
Sometimes a heart breaks
We seek love endlessly
We trust our eyes to see
But sometimes little people
Make big mistakes
I never meant to hurt you
But what can I say?
And I know
That you never meant to hurt me
Things just happen that way
We try to stand so tall
& still we feel so small
We find we're only little people
After all
And sometimes little people
Make big mistakes
