Spin the wheel, shake my chains  
I can feel new blood in my viens  
They thought we had passed on  
Now they'll see we are not yet gone  
Up and down the street, it's all over town  
Trouble is afoot, we are still around  
Tell my friend, Forest Lawn  
Sell that plot, we are not yet gone  
They think if they just close their eyes  
We'll go away  
Too bad they just don't realize  
We're here to stay  
I see you, I see me  
Years from here down this road we're on  
Everywhere on Earth, down in Babylon  
Forces are at work, we are not yet gone  
Minutes fly, days go by  
Years pass on, we are not yet gone  
Oh no, not yet gone  
Oh yeah, still around
