Best things in life come for free
So lay them on top of me
And fill me with your disease
You got it
I want it
I let you kill me with style
But you make me walk every mile
Keep teasing me all the while
I want it
I'm greedy

When you hold my hand I feel you're taking over
Trying to breathe but you're laying down on top of me
Everyone else knows that if you're calm it's no surprise
You squeeze me please me tease me
But you're just no good for me
(Eh eh eh eh)
You're just no good for me yeah
(Eh eh eh eh)
You're just no good for me
(Eh eh eh eh)
You're just no good for me yeah
(Eh eh eh eh)
You're just no good for me

No need for needle or thread
You sew a seed in my head
And then you leave me for dead
I'm bleeding
Oh oh

What is this poor man to do
Chewed up and spat out by you
'Cause I believed every word you said was true
Oh oh yeah

When you hold my hand I feel you're taking over
Trying to breathe but you're laying down on top of me
Everyone else knows that if you're calm there's no surprise
You squeeze me please me tease me

But you're just no good for me
(Eh eh eh eh)
You're just no good for me yeah
(Eh eh eh eh)
You're just no good for me
(Eh eh eh eh)
You're just no good for me yeah
(Eh eh eh eh)
You're just no good for me

Ohhh all we know
She's the kinda girl who brings you down and keeps
you on your toes
Ohhh mercy me
I see behind those pretty eyes there lives a liar in the
gene
And ohh now I see
That you're just no good for me

You're just no good for me yeah
(Eh eh eh eh)
You're just no good for me
(Eh eh eh eh)
You're just no good for me yeah
(Eh eh eh eh)
You're just no good for me
