"Never Leave You"

Visit "[Never Leave You](#)" on MotoLyrics.com

Woah woah I will never leave ya (I will never leave)
Woah woah I will never leave ya (I will never leave)
Woah woah I will never leave ya (I will never leave)
Woah woah I will never leave ya (I will never leave)

I'm still loving you like it was the first time
I'm still loving you like it was the first time

And yeah I've been there,
Right here in the most streets,
Late nights, Tryna write,
Mum saying go to sleep,
The king here, Raising war within my own fleet,
Dealing with the biggest dream, I thank the lord daily,
I'm sincere and I've been from the start,
I'm still, I'm strong and I have it in my heart,
So I dropped tears cause everything's changed,
Reminiscing them days,
Tryna turn the page

Cause I been around the world,
I've seen so many places,
Living the life,
I've worked so hard to make it,
Trading the world for money, stars and power,
Living my life at 100mph

And I'm still loving you like it was the first time
I'm still loving you like it was the first time

Woah woah I will never leave ya
Woah woah I will never leave ya

You must be joking,
Don't tell me that it's over,
From driving the scene forward, I'm a chauffeur.
It's open, so can we all enter,
Tired of being in the back, Now I'm center,
We're chosen, But there telling us were still in there
All we wanna do is open doors man, Hear me out,
We're frozen, Cause they left us in the cold,

Only right up to my chance now, We bringing it home

Cause I been around the world,
I've seen so many places,
Living the life,
I've worked so hard to make it,
Trading the world for money, stars and power
Living my life at 100mph

And I'm still loving you like it was the first time
I'm still loving you like it was the first time

Woah woah I will never leave ya(I will never leave)
Woah woah I will never leave ya(I will never leave)
Woah woah I will never leave ya(I will never leave)
Woah woah I will never leave ya(I will never leave)

And yo I dived in and now I'm swimming in the deep
end,
And I've been gone since the weekend,
So hows your week been, without me,
How you keeping, well this is come back season

Well this is comeback season,
I call it come back, I've seen the whole map,
And I'll be back by the evening

Cause I'm still loving you like it was the first time
I'm still loving you like it was the first time

Woah woah I will never leave ya(I will never leave)
Woah woah I will never leave ya(I will never leave)
Woah woah I will never leave ya(I will never leave)
Woah woah I will never leave ya(I will never leave)
