Sloe gin getting through them quick  
It gets clearer the closer we get  
Are you feeling it?

Are you noticing that we're breathing the same air?  
Breathing the same air  
The same air  
At the same time

Sloe gin pouring in  
2 turns to 3 and now you're leaning in  
It's easy, isn't it?

Are you noticing that we're breathing the same air?  
Breathing the same air  
The same air  
At the same time

Sloe gin it's not a lie  
It doesn't make things magically appear  
That weren't already there

Are you noticing that we're breathing the same air?  
Breathing the same air  
The same air  
At the same time

Are you noticing that we're breathing the same air?  
Breathing the same air  
The same air  
At the same time

Are you noticing that we're breathing the same air?  
Breathing the same air  
The same air  
At the same time
