Cloud nine, 'Munk, We're wishing them the best,
We're wishing them the best,

This is catch two-two, I'm age two-two,
Spent like two-two on a black out coupe,
Wanna know how I'm looking lately,
Don't stare through limousine tints that's rude,
I break necks I'm a real head turner,
And back then I was a first time learner,
I skipped classes, straight to the masters,
Now look I'm a skyline earner, Cash in hand no finance,
When we cash in grands it's violent,
Chipmunk co-pilots the airlines,
So flee we land on next islands,
I topped the bill, we can't relate 'cause you earn the
bill?, 100,
There's chrome on the grills, No less than 19's on the
wheels,
Back to the music wheel this, I flow crazy, mental
illness, brainless,
But I'm amazing grace so thy shall feel this,
I'm raising the bar, your waistline, I liaise with stars on
cloud nine,
Wings on my back, skydive, It's over, wrap, night time.

Trust, no stress we're calm,
We're shooting far, we got dem Trust, we glow in the
dark,
We're some superstars, we got dem,
Trust, no stress we're calm,
We're shooting far, we got dem Trust, we glow in the
dark,
We're some superstars, they wanna know,
How we sounding lately, Tell me how we're sounding
lately,
We're down, we're moving, So we keep it moving,
How we sounding lately, Tell me how we're sounding
lately,
The grams, we're moving, Flee, keep it moving,

I'm the cream of the crop,

Flee but I ain't all over the dog, My collar I pop, I'm
heavy I pop,
I'm heavy on grime, I'm heavy on rock, (anything)
And the garments speak for themselves,
Your outfit cost the same as my belt, Five bills,
So don't question me about wealth,
You get a pair I get the shelf, And that was before the
deal,
Assassinate versus born to kill,
Colder than Neptune's, so Pharall,
I mean for real, you know the deal, YOU know the drill,
Yeah G, I nail it, I talk money, more so, I make it,
And Tinchy don't boast too much,
But his stack is not what his name is, 'Munk, it's not
what my name is,
I've got money coming out of my anus,
I set trends, don't follow what the craze is,
If they're hood rich we're Vegas,
Lifestyles for the rich and famous, Face on the front
page papers,
A-list, they trail by acres,

Trust, no stress we're calm,
We're shooting far, we got dem Trust, we glow in the
dark,
We're some superstars, we got dem,
Trust, no stress we're calm,
We're shooting far, we got dem Trust, we glow in the
dark,
We're some superstars, they wanna know,
How we sounding lately, Tell me how we're sounding
lately,
We're down, we're moving, So we keep it moving,
How we sounding lately, Tell me how we're sounding
lately,
The grams, we're moving, Flee, keep it moving
