You feel me deep down, you got me so quick
You're messing me around, I'll be taking that shit
You hold me so tight, everything is so sweet
To pull me with vibe to the tip of my feet
You feel me deep down, you got me so quick
You're messing me around, I'll be taking that shit
You hold me so tight, everything is so sweet
To pull me with vibe to the tip of my feet
You feel me deep down, you got me so quick
You're messing me around, I'll be taking that shit
You hold me so tight, everything is so sweet
To pull me with vibe to the tip of my feet

Huh, and I'll be yours for tonight
Tell me what you wanna do!
Do anything for...
All my thoughts are focused on you
I'll let you know
I'm never gonna let you go
Keep doing me right
You make me feel like

Chorus:
You're the only one I believe in,
Nothing ever get in my way
Let's just put some little time between us
Gypsy baby, old way
Just remember how much I please
Don't forget the next time I see you
All along, you gonna be an ecstasy!

Hey, hey hold on, you got me so quick
You're messing me around, I'll be taking that shit
You hold me so tight, everything is so sweet
To pull me with vibe to the tip of my feet
You feel me deep down, you got me so quick
You're messing me around, I'll be taking that shit
You hold me so tight, everything is so sweet
To pull me with vibe to the tip of my feet

Huh, and I'll be yours for tonight

Say what you wanna, say what you wanna!
Do anything in life, do what you gonna, do what you
gonna!
I'll let you know
I'm never gonna let you go
Keep doing me right
You make me feel like

Chorus:
You're the only one I believe in,
Nothing ever get in my way
Let's just put some little time between us
Gypsy baby, old way
Just remember how much I please
Don't forget the next time I see you
All along, you gonna be an ecstasy!

What's a night, what's a day
What's an year without you, babe?

Chorus:
You're the only one I believe in,
Nothing ever get in my way
Let's just put some little time between us
Gypsy baby, old way
Just remember how much I please
Don't forget the next time I see you
All along, you gonna be an ecstasy!

Your homie is so
Your homie is so tight
You feel me deep down, and you got me so quick
Your homie is so tight
You send me to sleep
Feel me with lie!
