"Illusions"

I've got to terms with the fact that nothing is what it
seems!
What you've been taught is that who you are isn't quiet
good enough
You need to be... more than
Bigger than, brighter than, smarter than slimmer
than... richer
How you already...
It's some idea that in some pretty feature
You can be better than how you are
So if you look happy with who you are
It's actually good news because you're not who you
think you are
This life is an illusion
Who you think you are is who you think you are
