### "Slow"

Visit "[Slow](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Boy, what you know, is what you know  
And your pace is quickening it but still your heart goes  
numb

My heart beats slowly  
My heart beats slowly  
And my heart beats slowly  
My heart beats slow

Slow down now that you're here  
Differences, that don't hold me  
I'mma let my hair down, my hair down  
Baby, I am here now, I'm here now  
You're trying to have no fear  
When you're around this hotel place  
Listen to me clear now, clear now  
Baby, I am here now, I'm here now

My heart beats slowly  
My heart beats slowly  
My heart beats slowly  
My heart beats slow

Slow slow slow..

My heart beats slowly  
My heart beats slowly

You're the..  
Only you can bring me to me  
Baby, I'm falling, I'm falling  
Can't you hear me calling, calling?  
Yeah, yeah, yeah what you gonna do?  
Better slow down, baby make it all last  
Making it in the deep night, the deep night  
Baby, I don't feel like, I feel like

My heart beats slowly  
My heart beats slowly  
My heart beats slowly

And what you know, is what you know  
And your pace is quickening it but still your heart goes  
numb  
My heart beats slowly  
My heart beats slowly!

Come on, baby, touch my body  
Never stop it!  
I'm gonna ride it all for you  
I've been waiting all day  
I can ride you, baby  
But you make my heart melt (slow)

My heart beats slowly  
My heart beats slowly  
My heart beats slowly  
My heart beats slow

And what you know, is what you know  
Heart beats slowly,  
My heart beats slowly  
My heart beats slowly  
My heart beats slowly  
Slow, slow, slow

And what you know, is what you know  
And your pace is quickening it but still your heart goes  
numb

My heart beats slowly  
My heart beats slow

Slow slow slow
