I'ma lay it down so nice
Tonight I wanna go round twice oh
Oh oh oh oh
You're about to mill some seat
Fuckin with a freak like me oh
Oh oh oh oh
And baby I'll be the best
I can guarantee no less
You told me that I'll be the rest like
Damn, that's never felt so good
Do me like a woman shine, oh
You would be my only one
Baby take em all and just do it magic
What would happen

If I were you,
I've been not you
Think about it's been like
Come home to me and reunite the things I would do
The things I would do
Ah ah ah ah...
Can't get enough of what you do
Yours yours, now you'll be like
... say you the truth

I'ma let you come inside
Show you how I really did you right oh
Oh oh oh oh
Everything I'll do with care yeah
Any time you call on there yeah
Give my body tight always looking right
And everything I say I swear yeah

No, one else is got these tricks
I could fact on three splits
Like damn baby how you've been like that
Never met a chick so bad oh yeah

And then I'ma make you fall asleep oh
See it in your ear so sweet just tonight seem
What would happen, happen

If I were yours yours
I've been knowing you, you
Think about it's been like
Come home to me and reunite
And the things I would do
That I would do, ah ah ah ah ah
Can't get enough from what you do
Now baby like
Ah ah ah ah ah...
Can't get enough of what you do
Yours yours, now you'll be like

If I were yours yours
I've been knowing you, you
Think about, think like
Come home to me and reunite
And the things I would do
The things that I would do
That I would do, ah ah ah ah ah

You're that I've been needing in my life, yeah
You're that I've been needing in my life
Because no one can love me like you can
It's better to wait if you wanna don't keep me waiting

Somebody for you buy in a hurry... play it more
And then I think you all in the... of the...
You do, you do
'Cause you love me with the fire and the passion
I'll pick the phone and... door
So please touch me and give me sweet satisfaction, uh
uh, uh uh
