[Tity Boi]

Theres a chair over there and a bottle to the left
Aint nobody playing fair ever man for themselves
When the push come to the shove back to the push
You against us now us against you
All the buses came in 22's when the spre whole crew
Now everybody gone run when you run i thought i seen a
gun
But they fightin in the club
Got people doing stunts got people rolling blunts
Got people in the ring go people that have sense
You need to stay low till you get out this building
Bursting everything even ya enemy
Niggas swinging pool sticks niggas throwing pool balls
Got niggas throwing bottles and got them throwing
them all
Dont get locked up and get out tomorrow
They fightin in the club
Its all our fault had to go to waste cause all us folks
We used everthing for all us quote they took everything
from all us
Folks my blue shirt and they all got tore
Break pay for it we all got dough buckem bust buckem
bust
They fightin in the club

[Chorus: I-20 (Chingy) repeat 2x]
They drugged out (drugged out)
So clear tha club out (club out)
Niggas get drugged out (drugged out)
(i say they fightin in tha club)

[Chingy]
They fightin you fightin then get out tha spot
Hey black creep out tha ride and get ya shit and pop
