Into the black we descend
Tearing the gates from the hinges

One light, a blinding flash
One chance, a redeeming wish
One chance will we take it
One life my brothers we descend

Whatâ€™s the point of suffering?
When weâ€™ve been redeemed

One chance, one life
My brothers we descend

One life, one fight, one truth, one light
My brothers we descend

Letâ€™s get crazy

One chance, one life, one redeeming life
Can we take it, will we make it
We descend.
