

## Toarn "Love Simulation"

Visit "[Love Simulation](#)" on MotoLyrics.com

What is love?  
That's the question we ask  
For this physical love is not to last

Because this is not to last,  
Why do we always invest?

This love is not to last

So Father we long for you  
For love that we can hold to  
End this game of stimulation  
So Father we long for you  
For love that we can hold to  
End this love simulation

What is love? We ask this every day.  
And we find fake love in our various ways  
But this love ends in pain, always

This love ends, in pain, always  
This love ends

So Father we long for you  
For love that we can hold to  
End this game of stimulation  
So Father, we long for you  
For love that we can hold to  
End this love simulation

I know what love is,  
Agape peace  
Your gift, my wish
