[Young Noble]

Thug children, it's just a little somethin for y'all
We won't front for y'all, I'ma be blunt with y'all
What you wanna be when you grow up?
I wanna be a Outlaw just so I can blow up
Damn skippy, one love to young thugs that ran with me
as a young'n
Playin kick ball, hide and go seek or somethin
Right on the corner of New, yeah, I remember
So much fun as a kid, I ain't wanna go in to eat dinner
We need winners, little homie, stay in school
That machine in between your two ears is a tool
A precious jewel, like my two nieces
Shawniece and Kayla smile, make it all around
Christmas
[Name] gettin bigger, [Name] gettin smarter
Think I'm gettin older, watch em like vultures
[Name] got my nephew on the way soon
Want to raise Khalil to be a man like you
Oh damn, and little Janet gettin big fast
But I'ma help [Name] point her down the right path
Times have changed, it all started with the kids
Ghetto children, let's live

[Kastro]

Please know this is true, nothing come before you
I couldn't afford jewels before I had you
Now I got one, and I named you Jewel
Daddy don't love much but I sho' love you
You my all, my heartbeat and my feet
And I don't sleep for weeks just so you can eat
And [Names]
And the precious Black Diamonds all alone on the
streets
I live for y'all, y'all need me more more than I do
Don't let em lead you wrong, this is y'all song, y'all
special
And y'all got my heart right where it need to be
I smile for you cause y'all the destiny

Outlawz love the kids

[EDI]

Listen, Malik and Milan

From deep within me, you shine

I know you deserve more of my time

But I'm out here on this grind

Tryin to make a life better for you

Cause money makes the world go round and that's

gon' forever stay true

Still when I'm with you it seems like time movin slower

Cause God gave me a chance to give you game 'fore

you grow up

Daddy's little soldier, I been born again twice

The strength that I need to go on with this life

Now as I sing this song for you, I'm here to let you know

The world belongs to you, go 'head and get that dough

And let no man stop ya, protect your sister and your

mama

And when times get hard, remember, you got your

father
