Brother, brother, help me please,  
I'm as lonely as I can be.  
All my friends are scaring me,  
But if you forget me then I will leave.

Sister, sister, what can I do?  
I'm in love with tootsie too.  
Please excuse me if I am low,  
But me feelings just have to show.

People, people, hold my hand.  
Where in the hel is this promised land?  
Float right past me, oh I like your style.  
Seek it, seek it, seek it, seek it, you're here for a while.

Mother, mother, so good to me,  
Praying just so I can be.  
My father, my father, my only one,  
I hope you're proud of this your son.
