Addicted To The Light  
Music & Lyrics: Andre Tonanni

Wanna be a winner?  
Face the world and play  
Wish upon a star but keep you heart wide-awake

You know how to find me  
Where the stars are bright  
Nobody can stop me, I'm addicted to the light

I just feel that now is time to move on,  
So pack your things let's get the hell out of here

Crazy, maybe I just wanna have fun  
And show you now that there is nothing to fear

Comes a day, that dreams are close, you know the tide  
is high  
Comes a day, so spread your wings and fly (Chorus)

Can't you see, that our time has come  
So grab my hand you know together we're strong

We were born to shine, there's no way to hide  
Don't be afraid, the stage is where we belong

Comes a day, that dreams are close, stand up don't  
waste your time  
Comes a day, so raise your hands and fight (Chorus)
