Just A Crush

Music & Lyrics: Andre Tonanni

You don't wanna say, but I got to know  
I want you to stay, but you wanna go  
Tell me if is just a crush

I keep on trying hard, hard to understand  
If you wanna be with be, or I'm just another friend  
I wanna feel you breath on my skin  
You say you want it too, but it seems that you're  
pretending

Don't know what's happening in your mind  
But the answer to my questions I've gotta find

You don't wanna say, but I got to know  
Tell me what you feel  
I want you to stay, but you wanna go  
Tell me if is real

I won't wait, you decide It's too late  
You don't wanna say, but I got to know  
Tell me if is just a crush

You say you need some time, time to think about  
But the question is how long it takes for you to find out  
If there's a way to conquer your heart  
You'd better tell me now, 'cause I'm tired of all bark  
and no bite

You don't wanna say, I really got to know  
I want you to stay, why can't you just let go  
Why won't you tell me what you feel  
Just tell me if is real
