Never Ending Song
Music & Lyrics: Andre Tonanni

A never-ending song
I wrote it just for you
It's cute but makes me kind of fool

On the piano
Keep thinking of you
And also damn it's auto of tune

Don't know if you and me and meant to be, together
somehow
I know, that love is like a never ending song

Turn it up, play it loud
I wanna live this love now
You know tomorrow can't wait

Our feeling is true
I know that you love me too
Let's enjoy it today

I want
Right now
This love
But how

Turn it up, play it loud
I wanna live this love now
Let's enjoy it today

I wanna be with you
You wanna be with me
Together for the eternity... wait!

Forever takes too long
I'm getting kind of bored
Guess I don't want this anymore
