Room 16

Music & Lyrics: Andre Tonanni

There's a place in town
That I just found out
Gotta see, you won't believe that what I say is true

Once you play those games
You won't feel the same
Tell you how, don't ask me now 'cause I'm about to
prove

There's a place in town
That I just found out
A place to rest, with no regrets you can do what you
feel

Once you play those games
You won't feel the same
Gotta trust, I'll tell you just the way it happened

Beware, 'cause there's no turning back
Beware, you're just one step to the room 16

16, 16, 16, 16, 16, 16
You don't need I'd to try the room
16, 16, 16, 16, 16, 16
You don't need I'd to try

Charlie once came here
Angels had no fear
Once you're there, you'll go nowhere it makes you
wanna fly

Freedie lost control
Of his heart and soul
You won't resist, it's just a sip from seas of rye
