Scared Of Falling In Love
Music & Lyrics: Andre Tonanni

If you don't know, why I hide from you
Think you should know, baby, I'll tell you this
I need some time to find my place in your heart

I can't go on pretending I don't care
It seems so wrong faking things that I feel
All I can do is being who I truly am

I don't wanna say but I do wanna feel
Deep inside I know our love is real
Crazy I must be, but time will erase my fear to cry

My heart tells me to believe
But I am, scared of falling in love
Maybe, maybe, your love will set me free
But I am scared of falling in love

I feel your touch, and it wakes me up
It's not enough, just to have you this way
I won't be gone, hear what I say

I couldn't bare, see you walk away
Want you so bad, want so bad, deep in my heart
I wanna try, just don't know how to start
