I wish I never ever had seen your smile
Those innocent eyes
Your innocent eyes
I wish i never ever found what's behind
That clever disguise
Your clever disguise

Thought that I had found love
Had found love
Can't find love

Bygone!
Everything I wanted for so long
Everything that I ever dreamed of
Now is gone with you

That's why I say to myself:
Hold on!
I am not singing my swan song
One of these days I'll move on
Sudden love, without you
Bygone!

I never thought your lips told me lies
Pale little white lies
Your little white lies

But if you think I'm gonna fall down and die
I'm just saying goodbye
I'm just saying goodbye

Thought I had found love
Can't find love

Bygone!
Everything I wanted for so long

Everything that I ever dreamed of
Now is gone with you

That's why I say to myself:
Hold on!

I am not singing my swan song
One of these days I'll move on
Sudden love, without you
Bygone!

I'm saving up my heart
For someone new

I'm holding up my love
For someone good
Better than you
(hey, yeaah)

That's why I say to myself:
Bygone!

Everything I wanted for so long
Everything that I ever dreamed of
Now is gone with you

That's why I say to myself:
Hold on!

I am not singing my swan song
One of these days I'll move on
Sudden love, without you
Bygone!
