Some say that friendships should be a lifetime thing
The time that turns the seasons, builds trust and gives
us strength
A friend? s a friend forever, until the end of time
Through the good and the bad, a friend will be by your
side, yeah

If you're looking for a friend, you've found a friend in
me
And not just for tomorrow but throughout eternity
You're looking for a friend, you can always count on
me
Not just for the moment but for all eternity

A friend is one who listens, always there for you
A yes when there's a no, a don't when they say do
Someone who'll forgive you and never turn away
Arms of love that won't let go when you are afraid,
yeah, yeah

If you're looking for a friend, you've found a friend in
me
And not just for tomorrow but throughout eternity
You're looking for a friend, you can always count on
me
Not just for the moment but for all eternity

If the sun doesn't rise tomorrow
(If the sun won't shine)
And the world never turns again
My heart will never feel no sorrow
For I know that always the Lord is there
(That always)

If you're looking for a friend, you've found a friend in
me
(Yes or no, yes or no, yes or no)
I will be your friend till eternity
(You can always count on me)

If you're looking for a friend, you've found a friend in
me

(Found a friend in me)
And not just for tomorrow but throughout eternity
(Throughout eternity)
You're looking for a friend, you can always count on
me
(Count on me)
Not just for the moment, for all eternity

You can always, you can always count on me
