I remember begging my mom for these Z. Cavarricci's
With a striped genera shirt just to rock with these
brutini's
I begged and I begged, of course she said no
So I committed to cutting grass just to conjour up the
dough

With a little extra change I'll cut a slope and a fade
I'll be the freshest of the men in the midst of ninth
grade
It's crazy how we place these small things as important
While the monument's reminding us of washed up
Jordan's

Rivers that is, not the b-ball player, told the mountains
to
Move and now there's no more Himalayas
Had to set the devil straight since he was highly
overrated
Spoke and mountains moved and then the Alps
disintegrated

Racing through the fire I perspire like He times me
And cross the finish line to realize that He's refined me
Can't wait for morning breaks as joy turns from sorrow
Busting victory laps around mount Kilimanjaro

Oh, we've made it this far and there's no turning back
now
With all of the joy deep inside
We'll be praising His name, clapping hands while we're
singing
And dancing 'til the morning light, that's right, that's
right

Weight upon my shoulders, held a burden and they
thought
I'd never make it over, so I had to prove them wrong
I never stopped believing, not a doubt in my mind
The blessings I'm receiving, have cast the fears aside,
yeah

Wasn't easy, I got to let you know, had a lot to
overcome
But He loves me, he showed me the way to go
Feels like life has just begun

I'm a scream from the rooftops, freckled face pigment,
light
Complexed pigment, least expected remnant, over
flooding
Supercharged enlarged freshly gutted, surgically
removed was
The flesh Jesus cut it. Was allotted when I got it, most

Happiest, most joyful, vibrant, vibrating, dance around
Illustrating. My matrix, a labyrinth, a maze, a
holographic image
No end to my phonographic limits. If you've seen it
once you've seen
It twice, propelling, stopping swelling by applying bags
of ice

I'm open, before receiving Christ in darkness groping,
Proverbs 4
The focus of the diagnosis spoken made the decision
to collision
With incision self division multiplying and relying,
sinful dying
Cling to vision thank God in all I do, uh-uh, thank God in
all I do
Can't entrap me and I'm happy born anew

Won't be easy, I've got to let you know
There's a lot to overcome
But He loves you, He'll show you the way to go
You will feel like life has just begun

I got to keep moving and never carry the weight
Trying to do it myself instead of walking in faith
Leaving the rest to Him, giving my best to Him
And put my flesh to death without a breath to take

Had to battle the beats and overcame defeat
Another factor of the seven from the garden of Eden
Bonafied a true survivor of the wilderness
Blessed beyond I gotta move on I gotta move on

If you wanna dance with me
Now's your chance to be totally set free
If you're in the groove
And you know God is seeing you through
Better make your move
