

## **Out Of Eden "River"**

Visit "[River](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It's hard to see that  
Hard to believe that  
I once was all on my own, oh yeah

'Cause You've been faithful  
And I'm so grateful  
That you never left me alone, but oh

Oh, it's so good to know  
To know that You are with me all of the time  
You'll never let me go  
And I am walking with You to stay alive

When the mountains fall  
When the stars collide  
I know You'll be there  
Standing by my side, oh, oh, oh

When the river runs  
Overflows the seas  
I know You'll be there  
And You will still be lovin' me

Still be lovin' me, yeah

Some try to tell me that there's another  
Something that fulfills like You do  
But I'm not leaving there's nothing out there  
Not a thing more precious than You

I have no need to fear  
My Father watches over me night and day, yes He does  
My choice is very clear  
I'm so delighted to be walking Your way, yeah, yeah

When the mountains fall  
When the stars collide  
I know You'll be there  
Standing by my side, oh, oh, oh

When the river runs  
Overflows the seas

I know You'll be there  
And You will still be lovin' me

When the mountains fall  
When the stars collide  
I know You'll be there  
Standing by my side, oh, oh, oh

When the river runs  
Overflows the seas  
I know You'll be there  
And You will still be lovin' me

Never have to worry, I'll never have to fear  
'Cause You are always near, taking good care of me  
I'll never have to worry, I'll never have to fear  
'Cause You are always near and You will still be lovin'  
me

When the mountains fall  
When the stars collide  
I know You'll be there  
Standing by my side, oh, oh, oh

When the river runs  
Overflows the seas  
I know You'll be there  
And You will still be lovin' me

When the mountains fall  
When the stars collide  
I know You'll be there  
Standing by my side, oh, oh, oh

When the river runs  
Overflows the seas  
I know You'll be there  
And You will still be lovin' me

Still be lovin' me, yeah  
Still be lovin' me, yeah
