You were my ticket outta here  
And I was your dream come true  
You gave me everything I ever wanted  
Except for you

I convinced my self that over don't mean over  
And I convinced myself that I could fix it all  
Two dreams collided maybe we got too excited for our  
own good

No more - hold on we can make it  
No more holding each other while the words all break it  
Move on you know we'll be stronger in the end

Now I convinced myself that nothing could ever tear  
me away  
And I convinced myself that we'd look back and laugh  
at this one day  
Two lives collidin' baby  
We got too excited for our own good

No more - hold on we can make it  
No more holding our breath while the truth all breaks it  
Move on ya know we'll be stronger in the end

Hey wait hey don't you know that this is there is where  
the whole thing went wrong  
Hey wait hey don't you wanna hear what I have to say  
Hey wait hey don't you know that this is where the  
strong go on

And all I ever wanted  
All I ever wanted  
All I ever wanted  
Was you

No more - hold on we can make it  
No more holding each other while the world tries to  
break us  
Move on ya know we'll be stronger in the end

Hey wait hey don't you know that this is there is where  
the whole thing went wrong  
Hey wait hey don't you wanna hear what I have to say  
Hey wait hey don't you know this is where the strong  
will go on

And all I ever wanted  
All I ever wanted  
All I ever wanted  
Was you
