

Out Of The Grey "Hope In Sight"

Visit "[Hope In Sight](#)" on MotoLyrics.com

Peace comes and goes
Oh but lately, Your peace flows
And when I focus on You
Your love comes into view
There is nothing between us as far as I can see

There's hope in sight, hope in sight
If seeing is believing, then call me a believer
Hope in sight, there's hope in sight
Now that I can see you through the eyes of faith

Peace, when it goes
Oh it leaves me with just one hope
No matter how near or how far
Your light is the brightest star
There is hope at both ends of the telescope tonight

There's hope in sight, hope in sight
If seeing is believing, then call me a believer
Hope in sight, there's hope in sight
Now that I can see you through the eyes, the eyes of
faith

I will look up
I will lift up my head and go on
I will call on the One who has carried me through
Will carry me until the end, there's hope
There's hope in sight
