### "What love is"

Some would sail the seven seas and cross the great divide,  
To find the perfect ecstasy to fill the heart and mind,  
Body and soul, we search for meaning,  
Before learning just what love is.

Some would say a sudden flame, a passion prone to passing  
To other just a distant dream, never meant for them  
So many souls would find their meaning,  
If they first would learn what love is.

Chorus  
What is love?  
To lay your life down to save another.  
What is love?  
To give yourself to those who dont deserve.  
When mercy smoothes the furrowed brow of justice,  
We will understand what love is.

Jesus calmed the stormy seas and crossed the great divide,  
Hes the perfect ecstasy to fill the heart and mind,  
Body and soul, the search is over,  
We found Jesus, Hes what love is.

Repeat Chorus

It took love like this to make us His  
Jesus came to show us just what love is.

Repeat Chorus
