"With All My Heart"

Hope calls to the heart of me
Holding out his arms to me
I knew he was mine when I first believed
With all my heart

With all my heart, I'd love to love him
With all my mind, I thought I could
With all my strength I did not hold him

But hope calls to the heart of me
Holding out his arms to me
I know he is mine but I must believe
With all my heart

And so I'm holding myself open
To love the one who first loved me
In times like these when I am broken

His hope calls to the heart of me
Holding out his arms to me
I know he is mine but I will believe
With all my heart
