Eversince i was just a young boy I always chased my dreams I know ima do my thing I know ima do my thing So please dont stand in my way I know where im supposed to be I hope yall walk with me I hope yall Walk with me

So what you lookin at me for Maybe if you opened up your mind then you would see more Maybe if you voted everytime there wouldnt be war And people who usin they kitchen oven as a heator

For the people who dont see hope The same ones who workin everyday for a zero Salary, hourly, but aint nothin free tho Ima take over the world and ima be ya hero

I do this for the people, not treated equal But like somethin you can see through I never leave you, even if i never meet you To the women who dont believe in themselves i believe you

The kids who starvin in africa know that ima feed you Ima be the sequal on the tv that i see you Ima make sure that you get another fettuchino Better be no opposition you sippin on pellegrino

Eversince i was just a young boy I always chased my dreams I know ima do my thing I know ima do my thing So please dont stand in my way I know where im supposed to be I hope yall walk with me I hope yall Walk with me

Im at the point where ive had it with all the drama So ima count em all up and send a letter to obama Tellem that i hate the way that i be livin right now

So ima find a way to change it or i just might drown right now

And maybe, i just wanna go away And i wonder who would notice if i go today But then again i got a dream and so i gotta stay Wanna know how im feelin i say "walk with me"

Ya, and im reachin for the stars now Im just hopin i dont slip and i dont fall down And i dont see a point in putting up a wall now So ima let you in and spread the love all around

Eversince i was just a young boy I always chased my dreams I know ima do my thing I know ima do my thing So please dont stand in my way I know where im supposed to be I hope yall walk with me I hope yall Walk with me
