LONG WAY FROM HOME

Verse 1

The moon is out tonight
And I'm drinking my bottle of wine as I recall
The day I left my home
The day I left my heart long time ago

I feel my time is near
And I feel I found my reason to be here
But I'm a long long way from home
And I'm a take this ride
I'm a take it on my own

VERSE 2

I used to hear the ocean near
I used to hear waves crashing throughout all these
years
And it seems like yesterday
Since the music came by and blew me far away

Now I'm here and I've set a goal
Now I'm here and I feel I don't have far to go
And I'm a long long way from home
And I'm a take this ride
I'm a take it on my own

OUTRO

I'm a long long way from home
