VERSE 1

I could take you tongue to war
Stab them till they kiss the floor
Turn them to each other
That's you
Break them all by twisting
The truth

CHORUS 1

When you speak
We all follow

VERSE 2

Lets all get together once more
Go back to where we were
Before
Turn away from whose tongues
A sword
Hide before she starts another war

CHORUS 2/BRIDGE

When you speak
We all follow (through)
When you say your words
Hell breaks (Lose)

CHORUS
