"Coming Of Age"

Visit "[Coming Of Age](#)" on MotoLyrics.com

Well it's taken it out of me
I'm really glad I met you
Down on bended knee
Now I just can't forget you

Sooner or later boy you got to throw away those toys
Now I'd be blind to say it's what it is about me

I wanna stay up late in your room at night
I wanna watch my world, grow old and die
I wanna get drunk, leave my brain outside
I wanna make friends with people I don't like

Coming of age now
Coming of age now

One of these days you'll see
The TV's gone all empty
It's what you mean to me
And how I never told you
Remember all the blame
And how we used to act our age...
I'm hoping you'd rather stay
Pride is staring back at me

I wanna stay up late in your room at night
I wanna watch my world grow old and die
I wanna get drunk, leave my brain outside
I wanna make friends with people I don't like

Coming of age now
Coming of age now
