The sun comes up  
The moon goes down  
A new day's on it's way

The stars in the sky  
Are waving goodbye  
And morning's here  
Bringing in the day

Then the kids start to shout  
Mother and Father, get up  
And here's the sun

Light sings  
All over the world  
Light sings  
All over the world

Light sings  
All over the world  
Light sings  
All over the world  
Light sings

The night is gone  
The light has come  
A new day has begun

The weather is clear  
And people are here  
And morning's here  
Calling everyone

Then the kids start to shout  
Brothers and sisters, come out  
Into the sun

Light sings  
All over the world  
Light sings  
All over the world

(Let me tell you that)  
Light sings (yes, it do now)  
All over the world  
(Oh, yeah) light sings  
All over the world

(Would you believe that)  
Light sings (yeah)  
(I know) light sings  
(Come on)

Light sings  
All over the world  
(Brothers and sisters)  
Light sings (come on now)  
All over the world

(It's a new day)  
Light sings  
All over the world  
(Let me tell you that)  
Light sings (yes, it do now)  
All over the world

(Here's the sun)  
Light sings  
(Yeah, come on and say it)  
Light sings (come on)

Light sings  
All over the world  
(Mothers and fathers)  
Light sings  
All over the world

(Come on, come on)  
Light sings  
All over the world  
(Come on, all over the world)  
Light sings (oh, yeah)  
All over the world...
