"The Power"

Visit "[The Power](#)" on MotoLyrics.com

You think you've got it, got it under control
The clock is ticking almost time to roll
Anticipating every step of the way
A few more hours it's the end of the day

I can almost taste it now, what I want and how
On the runway gonna fly, and there's nothing
That can stop me now

To the poer, to the power of ten
There ain't no limit to the show that never ends
To the power, to the power again
We'll rock, we'll shoot, for the stars

We'll get that feeling, it'll come tonight
The biggest party ya we'll do it right
We're gonna shake it baby all night long
We're gonna do it to our favorite song

I can almost taste it now, what I want and how
On the runway gonna fly, and there's nothing
That can stop me now

Chorus

You know I wanna be a rambler
I wanna be what I can be
I'll go along that open highway
I will, I will
