Thinkin about the days
With my head down
Lost count
Freaked out, fall down really hard

Thinkin bout the days
At the bottom of the food chain
Freaked out, fell down really hard

Thinkin about the days
With my head down
Lost count
Freaked out, fall down really hard

Thinkin bout the days
At the bottom of the food chain
Freaked out, fell down really hard

I can't remember if i even like this place
So here is my thanks for nothing
All you losers i just can't escape

Everybody knows what the middle finger shows
Im waving that along with my name
Sounded kinda strange, fucken people never change
Always telling me that i am insane

Oohhhhhhhhaahhhh.....

I can't remember if i even like this place
So here is my thanks for nothing
All you losers i just can't escape

Everybody said that i would wind up dead
But counted on that kid to get ahead
Sounded kinda whacked
Fucking peaple with their facts
Can all get on their knees and give me head

I can't remember if i even like this place
So here is my thanks for nothing
All you losers i just can't escape

Thinkin about the days
With my head down
Lost count
Freaked out, fell down really hard

Thinkin bout the days
At the bottom of the food chain
Freaked out, fell down really hard

Thinkin about the days
Got my head down
Lost count
Freaked out, fell down really hard

Thinkin bout the days
At the bottom of the food chain
Freaked out, fell down really hard

I can't remember if i even like this place
So here is my thanks for nothing
All you losers i just can't escape

Thinkin about the days
Got my head down
Lost count
Freaked out, fell down really hard

Thinkin bout the days
At the bottom of the food chain
Freaked out, fell down really hard

Thinkin about the days
Got my head down
Lost count
Freaked out, fell down really hard

Thinkin bout the days
At the bottom of the food chain
Freaked out, fell down really hard
