Jesus loves you, but I'm just using you for your body,
haha, it's Tristan Rogue

I strut my shit, like a bitch

yeah you know that ain't a crime

Want my sex, take a seat

Shot of whiskey, glass a wine

ã€€

Gonna make you bite your lip

Tease you right just touch the tip

Pull your hair, you can't resist

I'm your king, you only wish

ã€€

Cause i call all the shots and when we start and we
stop- oh oh oh

So baby listen to me, you can leave if you don't like
what you see

ã€€

You can't control everything in my life

You can't alter every thought in my mind

Cause I'll delete you if you think you can try

I'll knock you down at my feet

and hit control alt delete

ã€€

So quit the PDA I just wanna dance,
We came to rock it, not another romance,
If you can't love me just the way that I am
I'll knock you down at my feet
and hit control alt delete, yeah

~

oh oh oh oh oh oh c-c-control alt delete
oh oh oh oh oh oh c-c-c-control alt delete
oh oh oh oh oh oh c-c-control

I'll knock you down at my feet
and hit control alt delete

~

Every night we go insane
Drinkin' whiskey like champagne
Dirty pretty little slut
Plastik Poison aint enough,

~

I'll show you just what I got,
Bend you in Pretzels like a knot,
I'm your king, I wear the crown,
Serve me bitch, now get back down,

~

Cause i call all the shots and when we start and we
stop- oh oh oh oh

So baby listen to me, you can get up if you don't like
what you see

ã€€

You can't control everything in my life

You can't alter every thought in my mind

Cause I'll delete you if you think you can try

I'll knock you down at my feet

and hit control alt delete

So quit the PDA I just wanna dance,

We came to rock it, not another romance,

If you can't love me just the way that I am

I'll knock you down at my feet

and hit control alt delete

oh oh oh oh oh oh c-c-control alt delete

oh oh oh oh oh oh c-c-c-control alt delete

oh oh oh oh oh oh c-c-control

I'll knock you down at my feet

and hit control alt delete
