You know I've got it out for you
There's nowhere to go, there's nothing to do
Just tell me where to drive tonight
Cause the night we spent, I'll never forget
The things you said, but more than that

The things you couldn't bring yourself to say to me
And I can guarantee...

I'm gonna make you famous
Here's 15 minutes to let us know you're shameless
I'll never deny you're the one I gave away

It's too late for you to turn back now
More time for you to figure out
How to get back how to get back to the place that you
call home

Just give me one chance I'll take it,
Don't give me your heart I'll break it
Just give me one chance and I can guarantee

I'm gonna make you famous
Here's 15 minutes to let us know you're shameless
I'll never deny you're the one I gave away

You fell in love with the skyline, little did you know
It was trying not to say "I told you so"
You had the city in your hands and you let it slip away
This town, these dreams, they'll never be the same

I'm gonna make you famous
Here's 15 minutes to let us know you're shameless
I'll never deny you're the one I gave away
(Too late for you to turn back now)
That I gave away
(More time for you to figure out)
(How to get back x6)
