Even when you don't know
I'll be by your side
Even when you think your all alone
I'll be by your side

Chorus

I'll be right behind you, keep on going
in which ever way the wind is blowing
I will be there till the world stops turning
baby I will keep this fire burning

(burning uh uh)
Burnin' ..

When nobody else is, I am on your side
baby when your not even yourself
I am on your side

Chorus

I'll be right behind you, keep on going
in which ever way the wind is blowing
I will be there till the world stops turning
baby I will keep this fire burning

(burning uh uh)
Burnin' ..
(burning uh uh)

Even when you've lost your faith in love
Even when there is no light above
Even when you wanna run and hide
I'll be on your side ooouuh yeaaah

I don't even think u no
how far I'm about to go
if you put your trust in me
I'll keep it comin
Ain't nobody stoppin me
when it comes to you and me
when nothings like it used to be
I'll keep it comin

Chorus

I'll be right behind you, keep on going
in which ever way the wind is blowing
I will be there till the world stops turning
baby I will keep this fire burning

I don't even think you no

if you put your trust in me
I'll keep it comin

Aint nobody stoppin me
When it comes to you and me
When nothings like it used to be
