Long before
I breathed the air that smelt of trees
Long before
I could see a sky above me
I've been trapped there so long
I don't recall the colour of the sea
I have not a companion
but the drops that are fallin' all over me
Since I was left down there
I want to know the one
who keeps the key of my chains
Since I was left down there
I haven't seen a ray of sun
breaking through my cage
ooooh ooooo please, set me free
ooooh ooooo please, set me free
I don't mind who will take care of me
all I want is to break free
runnin' away
I don't know the place where I will live
but I want just to feel free
be free again
ooooh ooooo please, set me free
ooooh ooooo please, set me free
ooooh ooooo please, set me free
