

## Two Lights

### "Wave Into The Sun"

Visit "[Wave Into The Sun](#)" on MotoLyrics.com

Let's take the car along the coast and stop at every  
little place  
You can tell your folks whatever you want  
Let's take a swim down at the beach tonight, the moon  
will be full  
Or you can tell your folks whatever you want

Let's ride this wave into the sun, wave into the sun

Let's take some beer down to the rocks and I will bring  
my guitar  
Or you can tell your folks whatever you want  
You can tell your folks we're just friends so we can  
sleep in the same bed  
Or you can tell your folks whatever you want

You go to my head, yeah you go to my head  
You go to my head, yeah you go to my head

Let's ride this wave into the sun, wave into the sun  
Let's ride this wave into the sun, wave into the sun

One day we will, see the world  
Way out past the ships in the bay  
But we are young and can only say

Let's ride this wave into the sun  
Let's ride this wave into the sun  
Let's ride this wave into the sun, wave into the sun
