"What Was The Point Of Our Song"

Visit "[What Was The Point Of Our Song](#)" on MotoLyrics.com

I heard our song on the radio last night
Made me think about
Good times of memories and missing you
All night longing, to have you here to hold you near
Wanting you back in my life and I thought

What was the point of our song, it didn't last very
long
It sounds just like you and I
Like an old country song
Something's always going wrong, like the way we
said goodbye
And I think about it all night long
What was the point of our song

Now you've got me wondering
How it would be
If I was still with you and you were still with me

Good times come and go
I hope you'll always know
You'll still be in my heart, still I wonder

What was the point of our song, it didn't last very
long
It sounds just like you and I
Like an old country song
Something's always going wrong, like the way we
said goodbye
And I think about it all night long
What was the point of our song

I'll never forget you, though we had a lot of good
times
The pain in my heart still lingers from wondering why

What was the point of our song, it didn't last very
long
It sounds just like you and I
Like an old country song
Something's always going wrong, like the way we
said goodbye

And I think about it all night long
What was the point of our song
What was the point of our song
What was the point of our song
What was the point of our song

I heard our song on the radio last night
