It never stops
We're living in a world of hatred, everything that you
have ever loved will
Suffer
Dear God if you're here listening, don't you fucking fail
me now

Because it's never too late to die
Don't waste my motherfucking time
Hatred, hatred kills the things you love to pass the time
The sick and weak are the ones who get left behind
Your only hope is certain death
Your only hope is certain death
It's gonna fucking kill us all
De-evolutionized and cursed
We're turning back, goddamn
We're becoming animals, killing instinctively
I've watched you fall a part

Open your eyes
Enjoy the serenade cause it wont last forever
Everything is so beautiful
Enjoy the serenade, it wont last forever
Everything is so beautiful
This ones out to all the shattered bruised and broken
souls
Hold on tight cause there's no stops to where we're
going
Hold on tight, it never stops
You're living in a world of hatred
Everything that you have ever loved will suffer
Dear God if you're here, don't you, don't you fucking
fail me now

Who's ever fantasized to live forever?
How could you be so blind?
The simple truth lies in us all
When will this all be over?
Withholding knowledge from the innocent to become
immortal
Wheres your fucking heart?

It's gonna kill us all
