Face me and tell me that this was all for nothing  
You took the one thing that I had in this world  
It brings me to fall to my knees  
I pray you dear God, tell everyone when I'm gone  
When I return the only ones who will die will be all

Kill  
Destroy  
So say goodnight to the bad guy  
You all turned away  
What you have done will be done on to you

In a moment you'll all be dead  
In a moment you'll all be dead  
My only wish was to say goodbye  
In a moment you'll all be dead  
My only wish was to say goodbye
