Yeah

I can't complain, I got the best things money can buy  
But I'm feeling hollow, driving solo in the ride of my life

I wanna know, I wanna see what's missing in me  
Tell me the truth, I'm looking for what's missing in me

I'm living a dream, got a big screen in my limousine  
I'm on top of the world, I've found the perfect girl  
I'm a sight that you can see but I ain't happy  
There's got to be some more to this dream

I wanna know, I wanna see what's missing in me  
Tell me the truth, I'm looking for

Oh, can it be true  
You died on the tree for people like me  
I've been more than a fool  
How much more can you do, I'd be lost without you

I've been more than a fool  
So tell me what can I do

I wanna know, I wanna see what's missing in me  
Tell me the truth, I'm looking for what's missing in me

I wanna know, I wanna see what's missing in me  
Tell me the truth, I'm looking for what's missing in me

I wanna know, I wanna see  
I wanna know, I wanna see
