You can be sure, I'll always do my best to never let you
down

I know you won't let me down
You're the light that will never leave me
You light up my way
I can always count on you

And I swear
I will keep it close
Cause your love's the most precious thing that I've ever
had
And I know you will do the same
Cause our friendship's what keeps us alive

I know you won't let me down
You're the light that will never leave me
You light up my way
I can always count on you

Let me say we are more than friends
Cause we are brothers and brothers are fucking blood
And brothers are a fucking family

Oh, I can't see our future
But I'm sure, yeah, that we'll be together

I swear
I will keep it close
Cause your love's the most precious thing that I've ever
had
And I know you will do the same
Cause our friendship's what keeps us alive

I know you won't let me down
You're the light that will never leave me
You light up my way
I can always count on you

This is my love that will last forever
This is my love that will last forever
This is my love that will last forever

This is my love that will last forever

I know you won't let me down
You're the light that will never leave me

This is my love that will last forever

I know you won't let me down
You're the light that will never leave me

This is my love that will last forever
