

Uptown Vocal Jazz Quartet "A Million Miles"

Visit "[A Million Miles](#)" on MotoLyrics.com

A million miles my heart can see
Into your eyes and know weâ€™re done
A million miles apart are we
And yet weâ€™re standing here as one
A million ways I hoped weâ€™d spend our love
As only souls united do
Now here we are about to end our love
And I would walk a million miles to get back home to
you.

Remember how you so beguiled me when
You said that love was not to fear?
Well now I wish I were a child again
And I could run away from here
A million times I hoped Iâ€™d never know
The day my heart would break in two
I wonder if, my love, youâ€™ll ever know
That I would walk a million miles if I could be with you.

We never thought the flame would flicker out
But love was harder than we knew
Goodbye my love and donâ€™t you ever doubt
That I would walk a million miles
Try a million trials
Walk a hundred million miles for you.
