Like the albatross
Spread your wings and fly

Sailing on a deep blue sea
Where dolphins roam the waters free
What's the law of nature:
Can we fly like dolphins dive
Standing on a mountain high
I keep the faith to touch the sky
These are dreams of heroes
These are dreams to feel alive

Eagles on solid air
Put their trust in the atmosphere
Riding on heavens high
This is the way, this is the day
Man has learned to fly

Like the albatross covers the horizon
Icaros, spread your wings and fly

Sitting in a rocket ship
An exodus on a magic trip
What's the law of nature:
Can we open up the skies?
Through the holes of time and space
A future for the human race
These are dreams of heroes
These are dreams to feel alive

Eagles on solid air
Put their trust in the atmosphere
Riding on heavens high
This is the way, this is the day
Man has learned to fly

Like the albatross covers the horizon
Icaros, spread your wings and fly
