

Vacuum "Power"

Visit "[Power](#)" on MotoLyrics.com

There's an infrared light
Cast on my telescope
There's a radiant vibe
Shining from a black hole

Although light-years between
Through the tunnels we see
On our satellite screen
There's a future to free

Can you feel the power
Feel the power
Feel the power from the stratosphere
Can you feel the power
Feel the power
Feel the power in the late night hour
Can you feel the power from out of there

There's a chemical bond
To the planets of life
Four dimensions beyond
We make contact tonight

Can you feel the power
Feel the power
Feel the power from the stratosphere
Can you feel the power
Feel the power
Feel the power in the late night hour
Can you feel the power from out of there

Can you feel the power
Feel the power
Feel the power from the stratosphere

Can you feel the power
Feel the power
Feel the power from the stratosphere
Can you feel the power
Feel the power
Feel the power in the late night hour
Can you feel the power from out of there
