I'm full of doubt
And I'm down with God

Does it help if I pray
Will you listen when I say
That I'm not completely happy with myself
I'm living through everybody else

A queen is on TV
Saying nothing about it at all
And it's all absurd to me
Absolutely nothing about it at all

If I walk amongst the living
Will the clothes I wear blend in
Can every love be something better than the last
And every color blur the past

A queen is on TV
Saying nothing about it at all
And it's all absurd to me
Absolutely nothing about it at all

A queen is on TV
Saying nothing about me at all
And it's all absurd to me
Absolutely nothing about me at all
