"Sea Of Silence"

Visit "[Sea Of Silence](#)" on MotoLyrics.com

Oh my love I know him well
Now we share a common ground
Up until the point I fell
Life was no where to be found

When I cry
In a sea of silence
Why
In a world of darkness
I need a beacon in the night

Hear the sound
Of a rolling thunder rain
To be warm again and
I need a beacon in the night
Cos everybody else is warm but me

From a lonely point of view
I search my inner state of mind
Take a step and dive into
Love is all and love is found
